

Dear Nova Families,

My name is Alicia Sorenson and I am currently teaching fourth grade in Paraguay. Before this, I taught in China, Yemen, and the United States for a total of eight years of teaching. I have spent the last five years teaching abroad and I have enjoyed the incredible growth and learning that I have experienced by living and working in different countries and cultures.

I grew up in Seattle, Washington and I went to college in Arizona. I earned a Bachelors in Elementary Education and a Masters in Educational Leadership from the University of Arizona. I taught in a rural Arizona elementary school for three years before deciding to teach internationally.

I am excited to learn more about the culture of Macedonia. I am eager to experience the nature and outdoors that the country has to offer. I enjoy traveling, hiking, reading, and trying new food, and I am anxious for these hobbies to extend to Skopje.

I am so excited to begin this new adventure in Macedonia and I look forward to meeting all of you in August!

Thank you,
Alicia Sorenson
