

Dear Nova Community

I am Dina Kirovski-Trajkova and starting from May 7th, I will be joining the administrative team in my new role as NOVA's HR Manager. I am using this opportunity to introduce myself to you, before having the pleasure to meet you all in person.

I come to you with over 10 years of experience in personnel management, starting with my 8 years of engagement as the Education Manager in CSO Triagolnik, followed by 3 years as the HR specialist and Psychologist in HR Agency ESI. As the Educational Manager I had the responsibility of coordinating large scale educational projects involving management of employees and external consultants and strategic HR management in line with organizational strategies. In my last post at ESI, I was responsible for recruitment services and I also had the opportunity to share my expertise by delivering consultancy services to HR professionals requiring support in their management challenges.

Both positions presumed performing wide range of tasks concerning employee management and strategic development, enabling me to learn by doing, and develop my competencies in this area accordingly.

My educational background is in psychology, I am a graduated Psychologist with certificate in Psychotherapy from the European Association for Gestalt Therapy. I have also extended my capacities as a non-formal educator by holding a certificate in Leadership and community youth work from the School of Education and Communication at the Jonkoping University(Sweden).

See you soon!

Dina Kirovski-Trajkova
